

CMC Corporation said that it has just welcomed and worked with the delegation of the People's Committee of Danang City led by Vice Chairman of Ho Ky Minh

This is the third meeting between the two sides after the previous field visit at Ho Chi Minh City CCS project on June 19th and the online meeting chaired by the Chairman of the People's Committee of Danang City Huynh Duc Tho on August 18th.

Mr. Nguyen Trung Chinh, Chairman of the Board of Directors of CMC Technology Group, informed the delegation of the People's Committee of Danang City about the work progress of CMC Creative Space Complex project (CMC Creative Space) in Da Nang city and Ho Chi Minh City; at the same time, sharing the capacity and position of CMC Corporation by introducing smart city solutions, securing the network security, and cloud computing (V-Cloud).

Through the Creative Space Complex project, CMC has affirmed its determination to stick with Da Nang city, and commits to contribute to building and developing the city in the future. CMC always wants to contribute its capacity in efforts to turn Da Nang into a regional and global digital service provider.

Vice Chairman of the People's Committee of Ho Ky Minh city affirmed that the goal of the CMC Creative Space Complex project is completely consistent with one of the development orientations of the city to become a center of high technology and information technology. news of the country and the region.

On the basis of implementing the direction of the Standing Committee of the City Party Committee, Vice Chairman Ho Ky Minh proposed the Department of Planning and Investment to soon approve the investment research policy for CMC Corporation; At the same time, it was assigned to relevant departments, sectors and branches to promptly implement the procedures to prepare the legal basis and conditions for the investment implementation.

On that basis, the People's Committee of Da Nang City and CMC Technology Corporation were determined to accelerate the investment preparation progress to start the project on March 29th 2021.

It is known that the project to build CMC Creative Space Complex (CMC Creative Space) in Da Nang includes functional subdivisions such as research and development; software production area, information technology; internet hubs; data center; Housing for professionals, staff and related services with full amenities according to high standards.

CMC's goal is to build Da Nang into an international gateway to a data connection and storage center, in the strategy of making Vietnam become the Digital Hub in the Asia-Pacific region.

Expected, total investment for the project is 12,000 billion, divided into two phases; When deployed, it will create jobs for about 2,000 workers in phase 1 and 10,000 workers in phase 2.
